

Business Education Diploma Program

Participation in this program involves students in the development of both specialized and generic skills. Specialized skills include keyboarding and software applications unique to the business environment. Processing information (numeric and literal), report writing, and electronic communications are representative of the generic skills encouraged.

- A program is made up of eight (8) Technology Education courses.
- Business/Computer credits may be applied toward Industrial Technology and Human Service Technology programs with the permission of the guidance counselor.
